

Bonus Pastor Enrichment

In our vision of developing pupils to be well rounded, responsible global Catholic citizens we value enrichment and extracurricular provision as equally important to our academic provision. This can be seen in the wide variety of activities and enrichment opportunities provided across the curriculum and school, which are carefully tracked and monitored and reported on, allowing for interventions to be put in place and further monitored to ensure that all pupils engage with our school as a community and as a family, positively impacting upon both their academic progression, and their moral, social, cultural and spiritual development.
